Renaissance Arts Exhibition

Renaissance was not only a golden age of art but also a significant phase in the development of human thought and culture. To help students gain a deeper understanding of the art and historical context of the Renaissance period, the school hall was transformed into an art gallery to showcase authentic art pieces from the Renaissance era. The game booths designed for the exhibition day combine knowledge from art, history, literature, and science, allowing students to connect and deepen their learning across different fields.

“The Little Grape” School Visit

To promote anti-fraud messages to the students, "The Little Grape" visited LUAAPS. Apart from having a great time dancing the Grape Dance, students also actively participated in the "The Little Grape Reminds You" quiz game, in which they learned about various fraud tactics and anti-fraud knowledge while winning Grape souvenirs. By the end of all exciting activities, students are able to remember the anti-deception messages and the "ADCC Hotline 18222". Let's stay alert to scams together!
