PICNIC TIME!

On the 23rd November, the school held a school picnic day. P5 and P6 went to Tai Po Waterfront park, P3 and P4 went to Jordan Valley Park, P1 and P2 went to Inspiration Lake. All students were excited because the original picnic day was cancelled due to a typhoon. We prepared a lot of food to eat and brought some sports stuff too. What a special day!

GIVING THANKS

On the 30th November it was Thanksgiving time at LUAAPS. We needed to thank our teachers, families and friends. This is because they help us when we need it and take care of us. We also took part in thanksgiving face painting and students did Thanksgiving tasks and played Thanksgiving games in their classes.

OPEN DAY

by K.W. Yam

Our schools Open Day was on the 12th November. Although it was held on a Saturday, we still helped out our teachers at school. Open Day was split into two periods, the morning session and afternoon session. Each classroom hosted a different subject like English, Chinese, Maths and many more. What a fun day!

DESIGN THINKING

by Solomon Lau

In November, P6 attended an event in the hall. It was all about obese children and how to stop obesity. We played games and wrote about what an obese child would experience in everyday life. We also drew what an obese child looks like and presented out thoughts about it. It was an eye opening experience!

MY HOBBY - RUBIK'S CUBES

by Vulcan Leung

One of my hobbies is 'cubing'. I usually cube every day. I have a 2x2, 3x3, pyramid shape and many more. The hardest cube to solve is the 6x6 one. The easiest is the 2x2. My personal best for the 2x2 cube is 2.7 seconds. My goal is to get a sub 10 second time on my 3x3 cube. It's a lot of fun! You should try it!

TEACHER TALK - MR. TAM

by Christiana Obilo

Mr. Tam is a new teacher at our school this year. He likes to eat udon noodles and enjoys superhero movies. His hobbies are watching Netflix and reading. His favourite colour is purple and he doesn't like pets!
