## 60th School Anniversary & Open Day

It was a meaningful day - the birthday of LUAAPS!

Through the teachers' and students' joint efforts in the Life-wide Learning week, we finally ushered in the Open Day and the 60th School Anniversary of LUAAPS.

On this day, our school was in great honour to welcome the honoured guests from EDB and different schools in Hong Kong as well as kindergarten students and their parents. Thanks to our parents volunteers and all the co-workers, we enjoyed a perfect day with unforgettable experiences.

# MAY NEWS

## 'Let students talk about Education'

Our school led 4 first-year students and 4 sixth-year students to participate in the Global Leadership Link (Hong Kong) 2024 'Let students talk about Education' International Conference 2024 to share their experiences and opinions on AI learning with local, mainland and overseas students. They also practiced on-site, using different AI programs for calculations and artistic creation.

## Exhibition on Traditional Chinese Medicine

Traditional Chinese Medicine has a long history" 🌿  
We try to let the children get in touch with and understand Chinese medicine and Chinese culture from an early age in an interesting way.

## The 16th English Radio Drama Competition 2024

Despite the first time joining this competition, we got 3rd place! Also, we had the smallest team (3 students only, all other schools had 5 students in their team) AND our team is the youngest with 2/3 of the team being P4 students. We are so proud of them. Congratulations and huge thanks to the English panel Ms Tam and all the NET teachers.
