Huangpu Military Academy Training Camp

To enhance students' self-confidence, sense of responsibility, and self-discipline, as well as to improve their problem-solving skills in adversity and foster a spirit of mutual assistance and love, our school organized a six-day "Guangzhou Huangpu Military Academy Training Camp." A total of 60 students participated in this immersive experience. Throughout the camp, not only did the students learn basic military skills but also engaged in various activities designed to strengthen their awareness of discipline. Such experience cultivated a strong will and improved students' physical fitness. This training camp represents a unique opportunity for students to break through personal barriers, fostering growth and self-discovery that will benefit them in all aspects of life.

"My favorite part was watching the movie, and "Wolf Warrior 2" was very interesting and thrilling. The whole journey was quite tough, especially getting up early, but overall it was something we could overcome and challenge ourselves with."

4B Chelsea Cheng

"I enjoyed the thrill of driving go-karts. However, the younger students were too small to drive on their own. As the older student, I took on the responsibility of driving, allowing everyone to experience go-kart rides and letting the younger ones feel the joy of this exciting activity."

Book Character Day

In the final week of April, our school celebrated the Book Character Day, an exciting event where students dressed up as their favourite literary figures. Dressing in imaginative costumes, each student showcased their character and shared the story behind them with teachers and classmates. The atmosphere was vibrant and filled with enthusiasm as students engaged in lively discussions about the books they loved. As the students listened to one another, they discovered new stories and genres, igniting a passion for reading. The joy of literature blossomed throughout the school, creating a rich and inspiring reading environment that encouraged everyone to explore new worlds through books.
